## FOR IMMEDIATE RELEASE

### SCHUST NAMES NEW DIRECTOR OF BUSINESS DEVELOPMENT

**Auburn, Indiana, January 20, 2020** – Schust, a provider of turnkey industrial ventilation solutions announces that Daniel Locke has been named Director of Business Development – Industrial Minerals effective January 6, 2020.

Locke has nearly five years of sales and technical experience in the industrial minerals and energy industries helping customers to safely achieve lower emissions, high reliability, and to lower total cost of ownership. “I don’t just sell services or products,” says Locke. “I generate what I call MBOs, measurable business outcomes that are based on a win-win partnership.”

“Daniel will be a valuable asset as he finds opportunities that help our clients achieve their business goals,” says John Rothermel, Schust President.

Locke will be responsible for helping customers achieve environmental, financial, health and safety goals. “I look forward to building teams of people with a shared goal to have the largest impact,” Locke added.

Locke has a Bachelor of Science in Business Administration; Marketing from the University of Southern Mississippi. Locke can also be found at Hewitt-Trussville high school coaching students to realize their potential in track and field.

#### About Schust

Schust provides turnkey industrial ventilation systems that clean the air in which employees work in. We understand the challenges industrial environments face today and have a flexible approach to project management. At Schust, we promise to design, fabricate, and install innovative air pollution control solutions that are guaranteed to perform. Schust becoming a member of the Scheuch Group is just one way to honor that promise. North American customers have local access to highly-respected European air pollution control and bulk material handling system technology. Keeping the air clean is no small task. It takes dedication and commitment to customer satisfaction. For nearly a century, customers have continued to trust Schust technology and in-house manufacturing experts to take on APC projects that they could only imagine.
