FOR IMMEDIATE RELEASE

SCHUST PROJECT MANAGEMENT TEAM GROWING

Auburn, Indiana, March 1, 2021 – Schust, a member of the Scheuch Group is a provider of turnkey industrial ventilation solutions. As an essential business that provides air pollution control systems, parts, and service that help to keep critical manufacturing compliant and operational, Schust has experienced tremendous growth in the past year and as a result, is pleased to announce organizational changes.

Matt Baker has joined Schust as Project Manager. Baker will provide customers with an air pollution control project that is done safely and meets or exceeds the customer's clean air goals and objectives.

Baker has nearly 10 years of industrial project experience in design and project management.

"Here at Schust, we strive to hire the most qualified and experienced people in the industry," says Eric Weaver, Manager of Projects. "His skill sets are exactly what we look for in candidates and he is already contributing to this excellent team."

Baker will assist with developing, organizing, managing, and planning complex air pollution control projects from installation to completion. "I enjoy visiting our customer locations and seeing projects that we fabricate and install transform from blueprints to a functioning air pollution control system," says Baker.

Baker currently holds an Associate's Degree in Mechanical Engineering Technology and will complete his Bachelor of Science degree for Mechanical Engineering in May 2022, both from Purdue University Fort Wayne.

###

About Schust

Schust provides turnkey industrial ventilation systems that clean the air in which employees work in. We understand the challenges industrial environments face today and have a flexible approach to project management. At Schust, we promise to design, fabricate, and install innovative air pollution control solutions that are guaranteed to perform. Schust becoming a member of the Scheuch Group is just one way to honor that promise. North American customers have local access to highly respected European air pollution control and bulk material handling system technology. Keeping the air clean is no small task. It takes dedication and commitment to customer satisfaction. For nearly a century, customers have continued to trust Schust technology and in-house manufacturing experts to take on APC projects that they could only imagine.
