## **FOR IMMEDIATE RELEASE**

### **SCHUST SALES TEAM CONTINUES TO GROW**

**Auburn, Indiana, May 18, 2021** – Schust, a member of the Scheuch Group is a provider of turnkey industrial ventilation solutions. As an essential business that provides air pollution control (APC) systems, parts, and service that help to keep critical manufacturing compliant and operational, Schust continues to experience tremendous growth and as a result, is pleased to announce organizational changes.

Matt Bulman has joined Schust as Director of Sales Steel and Foundry. Bulman will provide customers with the widest range of air pollution control products, services, and support.

Bulman has more than 20 years of experience selling graphite electrodes, chemical lime, and refractory products to the steel and foundry industries.

“Matt’s extensive industry experience and focus to be a valued resource to his customers made him a perfect fit for the Schust team,” says Jim Weber, Vice President of Sales and Marketing. “I’m looking forward to Matt’s ability to help drive tighter alignment with Schust and our customers.”

Bulman will be responsible for helping customers achieve their environmental, financial, health and safety objectives in addition to focusing on business development for new customer acquisition. “The strong leadership and team atmosphere along with the innovative product line and advanced engineering /installation group are all key components that attracted me to join Schust,” says Bulman. “I want to continue building on the already strong foundation Schust has and develop new opportunities for the entire organization.”

Bulman was raised in New Jersey and attended the University of Scranton in Pennsylvania. He and his wife of 19 years have three children. When not working with customers, Bulman enjoys cycling, soccer, golfing, and hiking with his family.

###

## About Schust

Schust provides turnkey industrial ventilation systems that clean the air in which employees work in. We understand the challenges industrial environments face today and have a flexible approach to project management. At Schust, we promise to design, fabricate, and install innovative air pollution control solutions that exceed expectations. Schust becoming a member of the Scheuch Group is just one way to honor that promise. North American customers have local access to highly respected European air pollution control and bulk material handling system technology. Keeping the air clean is no small task. It takes dedication and commitment to customer satisfaction. For nearly a century, customers have continued to trust Schust technology and in-house manufacturing experts to take on APC projects that they could only imagine.
