FOR IMMEDIATE RELEASE

SCHUST ENGINEERING TEAM GROWING

Auburn, Indiana, July 14, 2021 – Schust, a member of the Scheuch Group is a provider of turnkey industrial ventilation solutions. As an essential business that provides air pollution control systems, parts, and service that help to keep critical manufacturing compliant and operational, Schust continues to experience tremendous growth and as a result, is pleased to announce organizational changes.

Jacob Schmeling has joined Schust as Design Engineer. Jacob will be a part of a growing team that contributes to design and equipment layouts of dust collectors and ventilation projects.

Jacob graduated from Ohio State Spring 2020 with a Bachelor of Science in Civil Engineering. “I look forward to tackling the unique set of challenges that designing ventilation solutions presents,” says Jacob. “I see bountiful opportunities for growth at Schust that are only compounded by hands-on training and the experienced team of engineers and project managers.”

“Jacob is a well-rounded, inquisitive engineer who is eager to utilize his education,” says Bill McCabe, Manager of Engineering. “He’s an excellent addition to the team that will be exposed to the practical and interactive aspects of engineering and design.”

Jacob is a native of Fort Wayne and he enjoys biking, cooking, and music with his wife, Ruiyu.

###

About Schust

Schust provides turnkey industrial ventilation systems that clean the air in which employees work in. We understand the challenges industrial environments face today and have a flexible approach to project management. At Schust, we promise to design, fabricate, and install innovative air pollution control solutions that exceed expectations. Schust becoming a member of the Scheuch Group is just one way to honor that promise. North American customers have local access to highly respected European air pollution control and bulk material handling system technology. Keeping the air clean is no small task. It takes dedication and commitment to customer satisfaction. For nearly a century, customers have continued to trust Schust technology and in-house manufacturing experts to take on APC projects that they could only imagine.
